

Media Niche

Global E-commerce Community in China

Presented By:
Wang Wing Shing (Charles)

Presented Date:
09/2026

Who is in it?

- Knowledge Creators: Sharing simple guides for global selling.
-
- Sellers & Beginners: People looking to learn and start a global business.

What do we share?

- Marketing Tips: Explaining how foreign platforms like TikTok and Shopify work.
- Visual Styles: Sharing cross-cultural design ideas and popular trends.

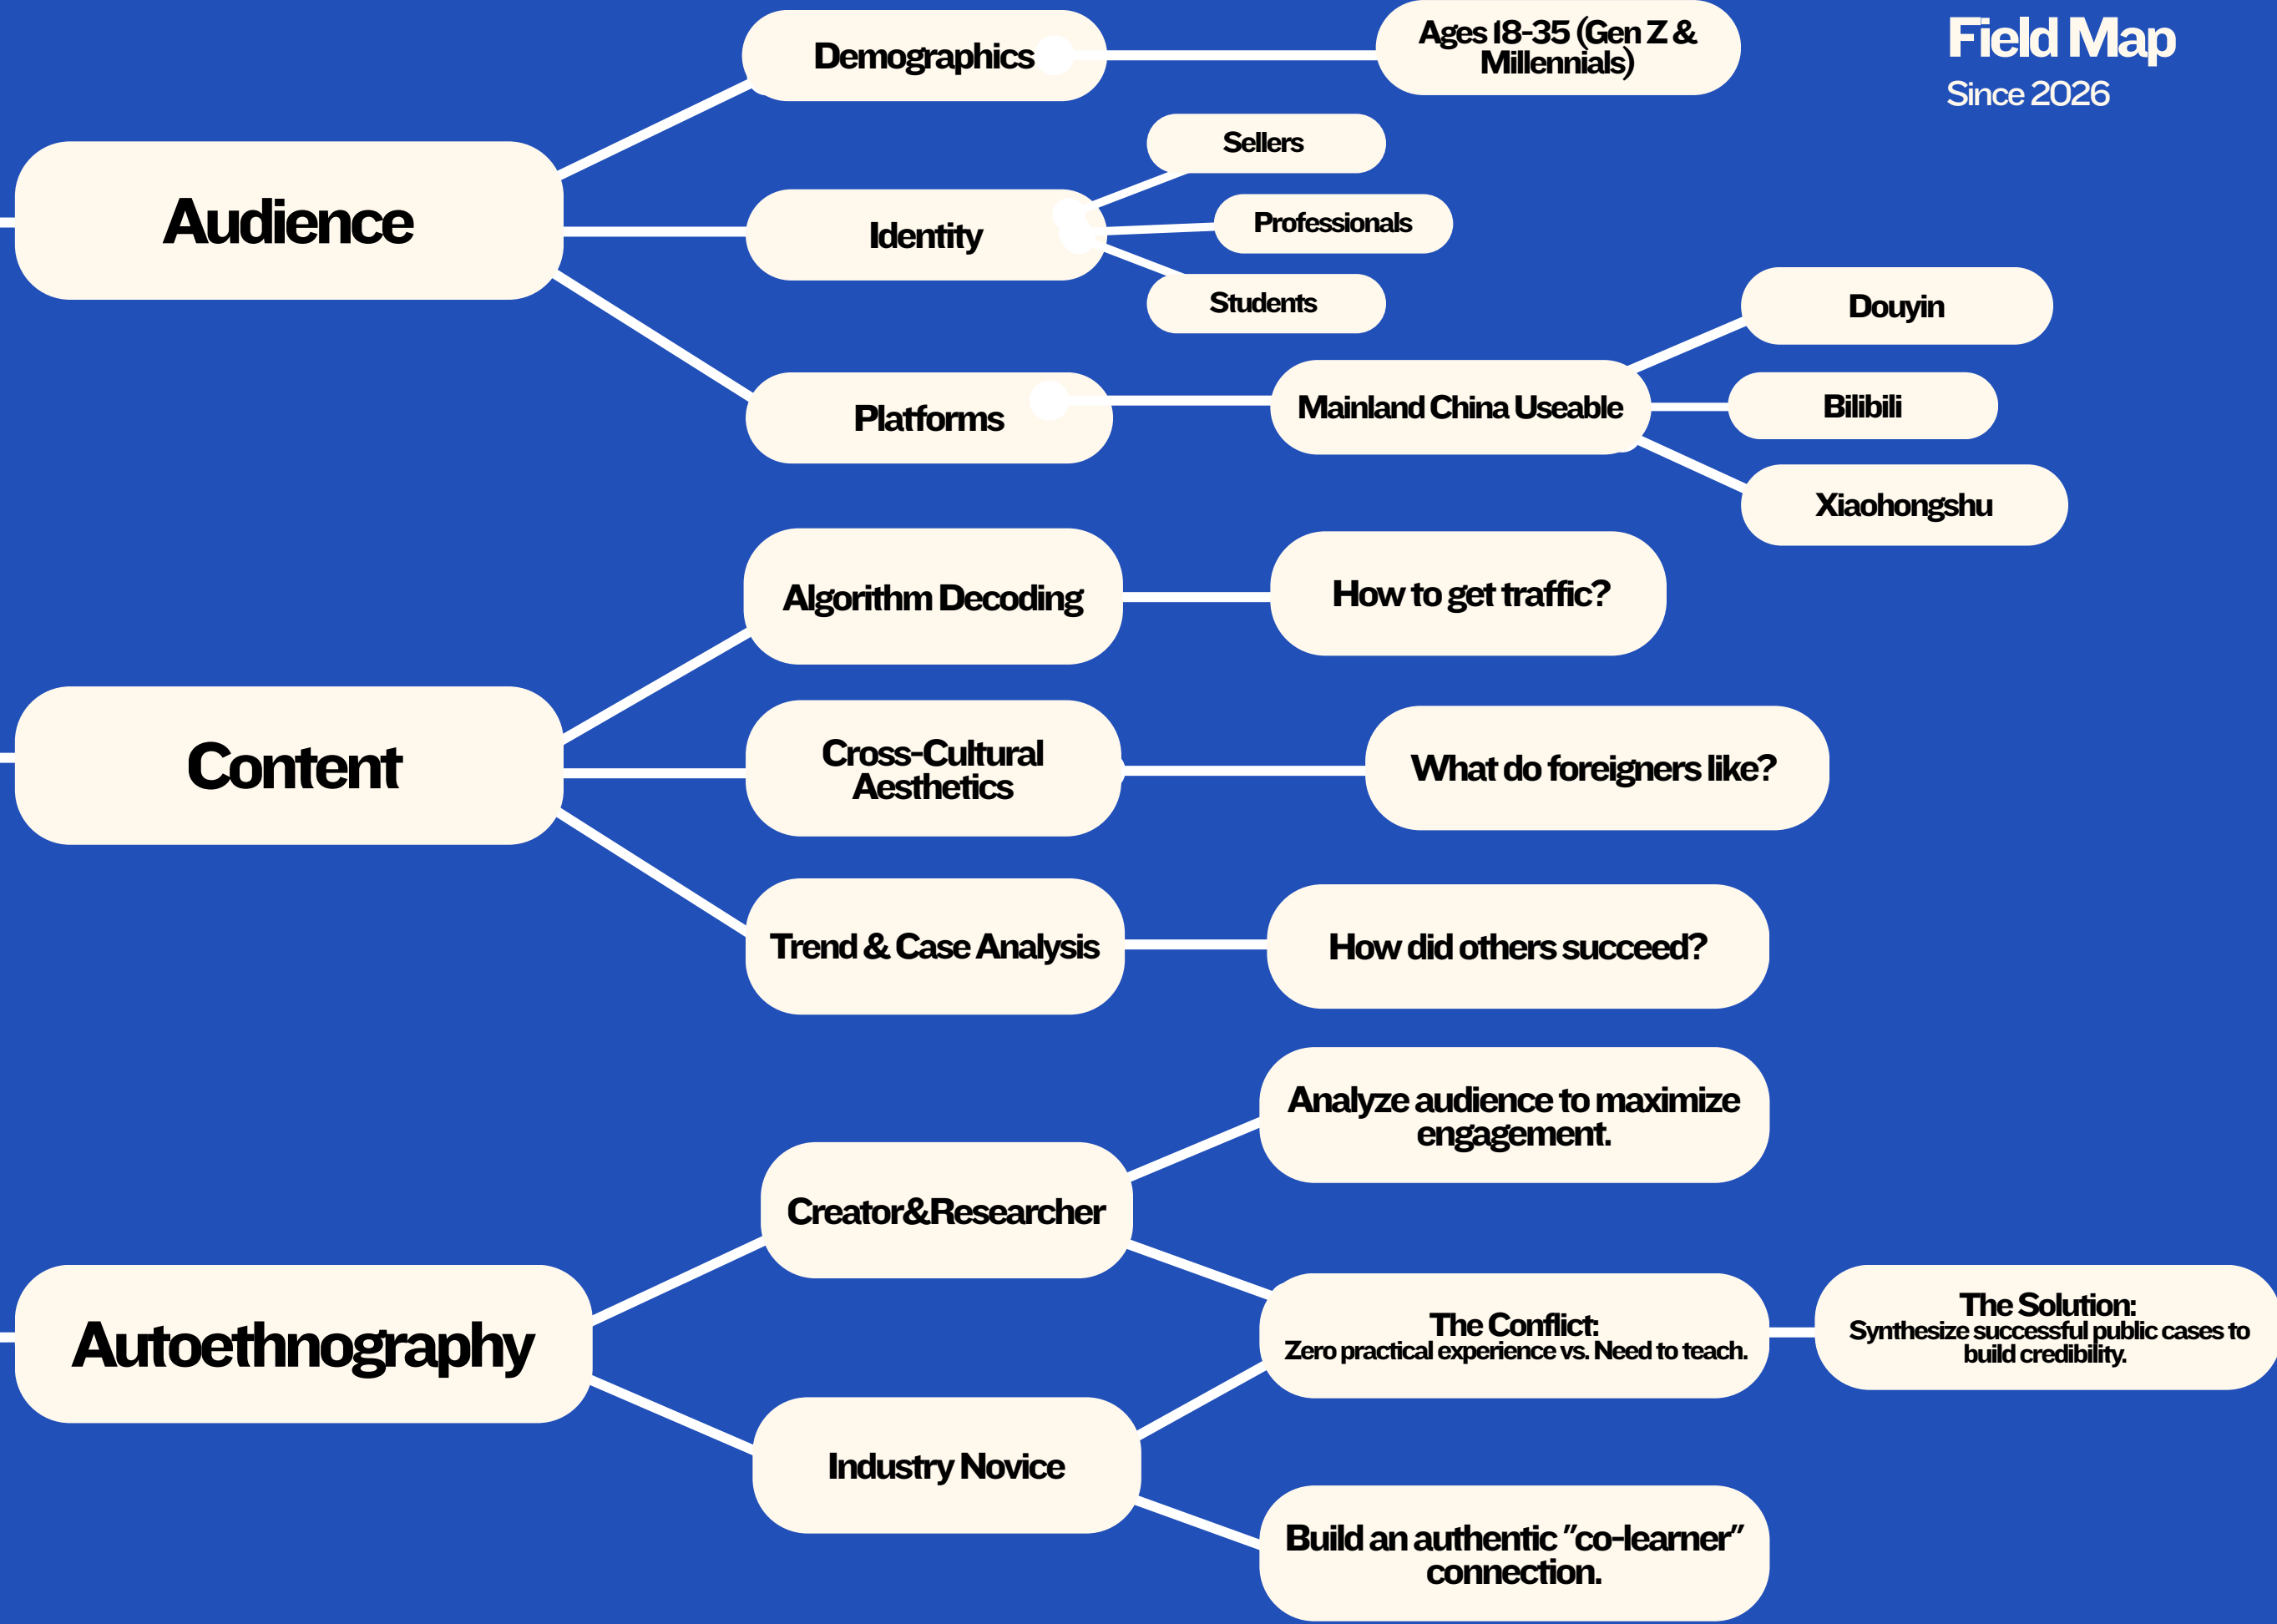

Why it matters?

- China has strong manufacturing, but the local market is nearly full. I believe global selling is the future trend.

Project Plan

My Autoethnographic
Investigation
Since 2026

What am I going to explore?

- **Content Adaptation:**
How do I adapt the same case study into different formats?
- **The Co-Learning Journey:**
How do I turn my novice experience into an authentic DA?

How will I make notes and document?

- **Performance Tracking:** Compare expected metrics (views, retention) with actual results to identify shortcomings.
- **Feedback Loop:** Analyze viewer comments to dynamically adjust video style and content.
- **Error Correction:** Document failed theories and publicly correct them via pinned comments or follow-up videos.

Sources

Methodological Framework

Hokkanen, S. (2017). Analyzing personal embodied experiences: Autoethnography, feelings, and fieldwork. The International Journal for Translation & Interpreting Research, 9(1), 24-35.

<https://research.ebsco.com/c/zdojgg/viewer/pdf/t2t4s33hfz?auth-callid=5235f9ec-a66c-49db-bl8a-a280b892933a>

Unlike traditional ethnography, autoethnography focuses on “using the personal experiences of the researcher-participant to understand facets of the social world”.

By writing field notes, I can translate ‘embodied sense into language’ and use writing as ‘a method of discovery and analysis.’

E-Commerce & Audience Context

Wang, Y., & Lee, S. H. (2017). The effect of cross-border e-commerce on China's international trade: An empirical study based on transaction cost analysis. Sustainability, 9(11), 2057.

<https://www.mdpi.com/2071-1050/9/11/2028>

01 Understanding Audience

02 Proves why my knowledge-sharing videos are needed to bridge the gap.

03 Helps me understand the current domestic e-commerce environment.

Platform Logic & Social Media

Xu, L., Cheng, Z., Ma, J., & Jiang, B. (2026). Alcohol-related health information on Chinese short-video platforms: a cross-sectional content analysis of Douyin and Bilibili. Scientific Reports, 16(1).

<https://doi.org/10.1038/s41598-026-56544-z>

01

Shows the core differences between Douyin and Bilibili.

02

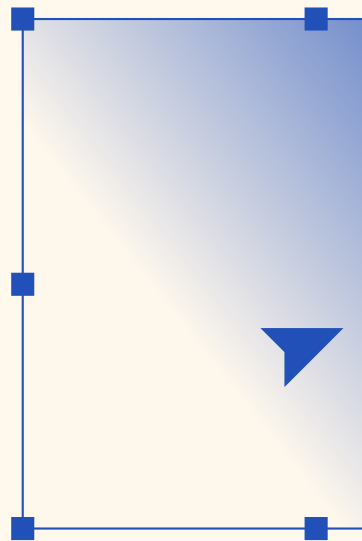

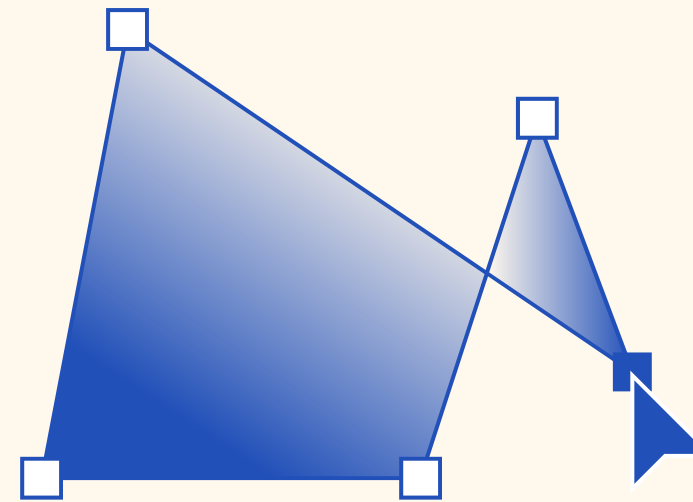

High video views do not always mean high quality.

03

How platform algorithms force me to change my content.

Academic Sources & Framework

Since 2026

Project Timeline

Phase 1: Setup & Launch (09.23 - 10.15)

- Register on 3 target platforms.
- Post 1st video & build "Co-learner" persona.
- Log expected metrics before posting.

Phase 2: Observation (Due: 10.30)

- Compare actual vs. expected metrics.
- Analyze comments to form key epiphanies.
- Goal: Submit Blog Post 1.

Phase 3: Adaptation (Due: 11.06)

- Adapt content formats across 3 platforms.
- Publicly correct mistakes via "Feedback Loop".
- Goal: Submit Blog Post 2.

Phase 4: Synthesis (Due: 11.20)

- Compile all field notes and data.
- Goal: Final DA & Contextual Report.
